UTS Administrasi dan Desain Jaringan Kom C

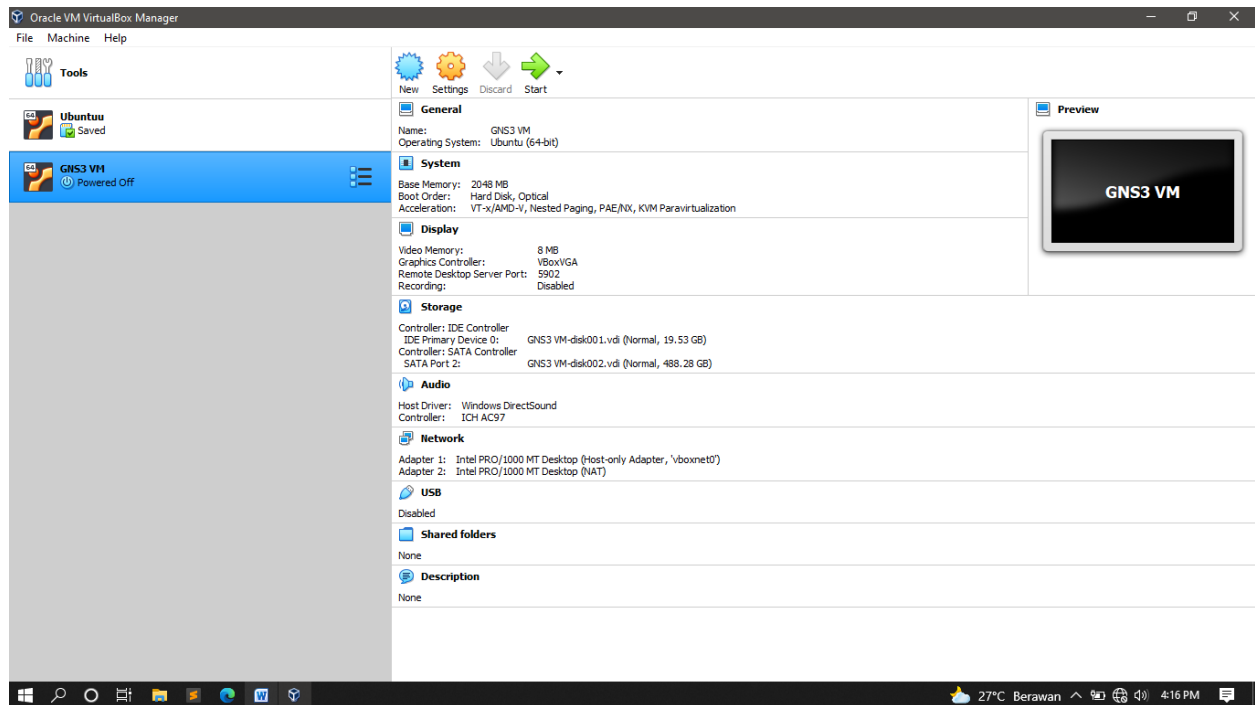

Laporan Cara Penggunaan GNS3 untuk melakukan simulasi pada jaringan computer

- Pertama, import GNS3.VM.VIRTUALBOX ke VirtualBox.

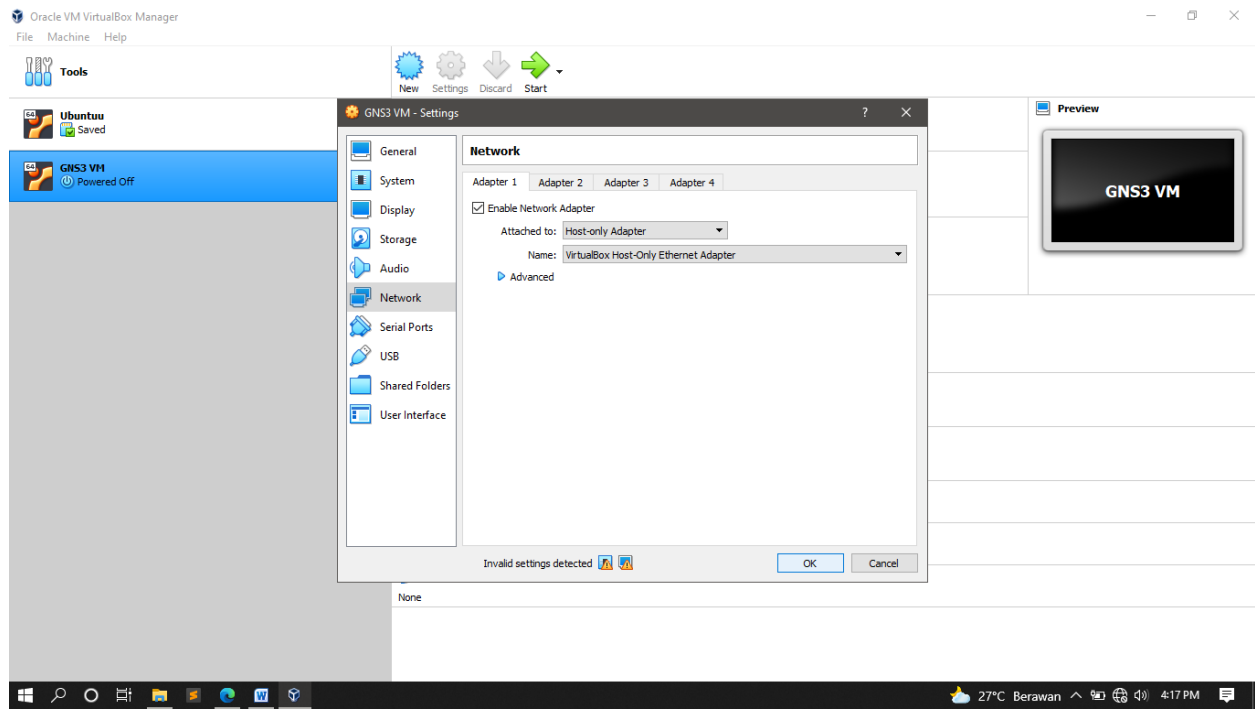

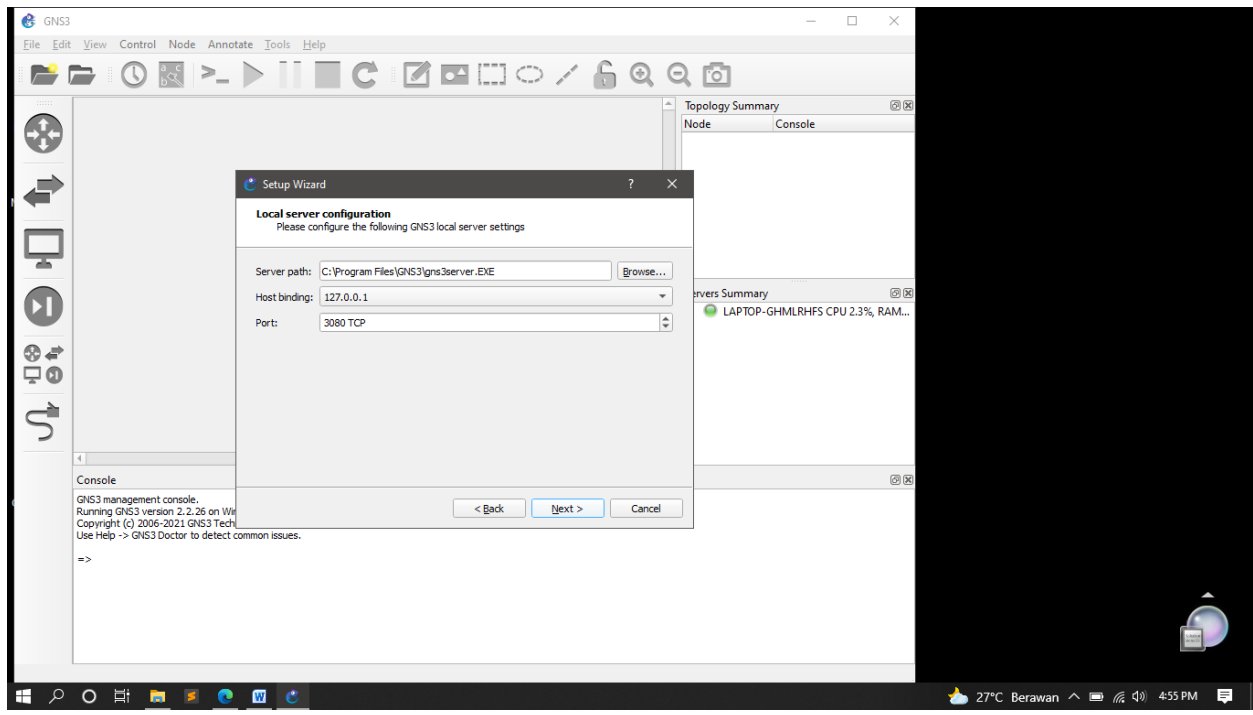

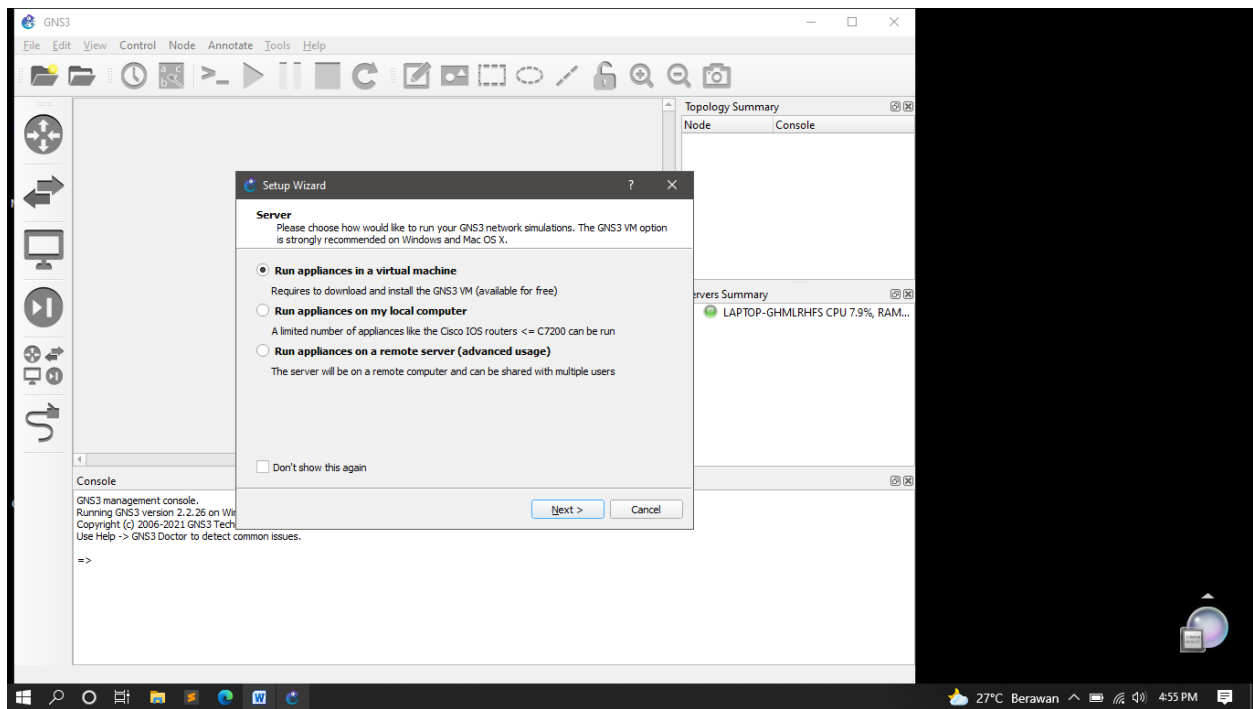

Tampilan setelah selesai di-import.

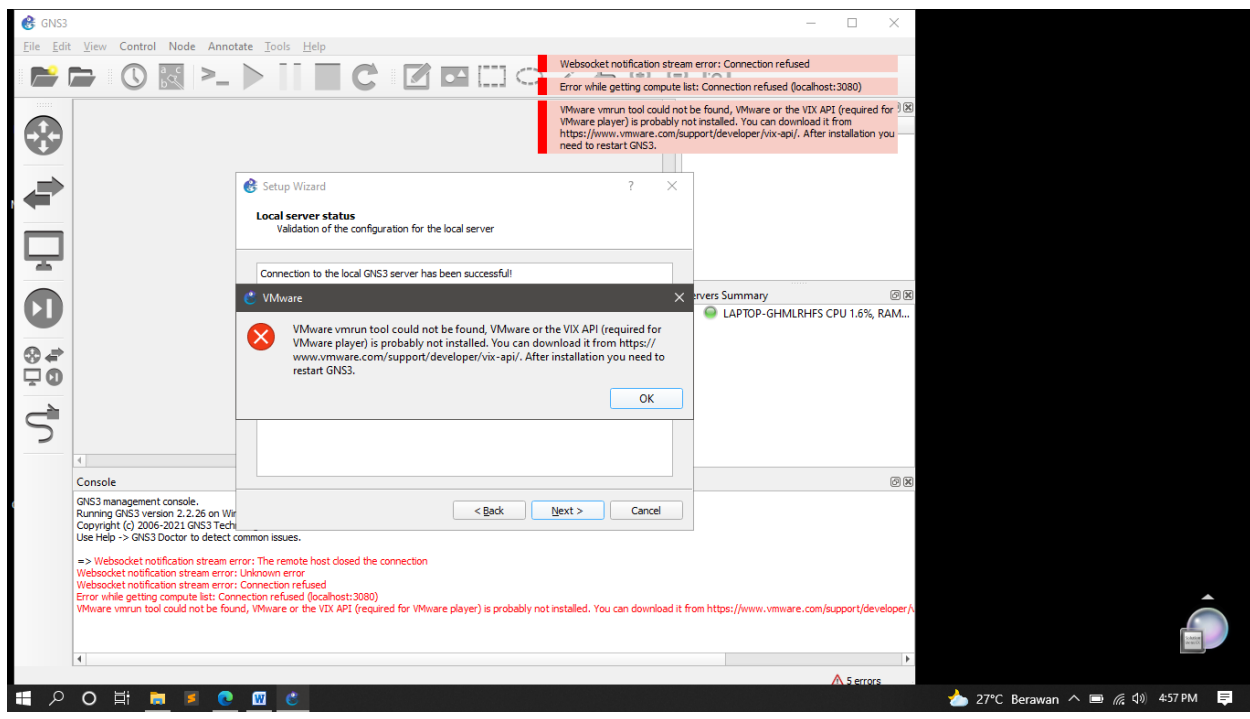

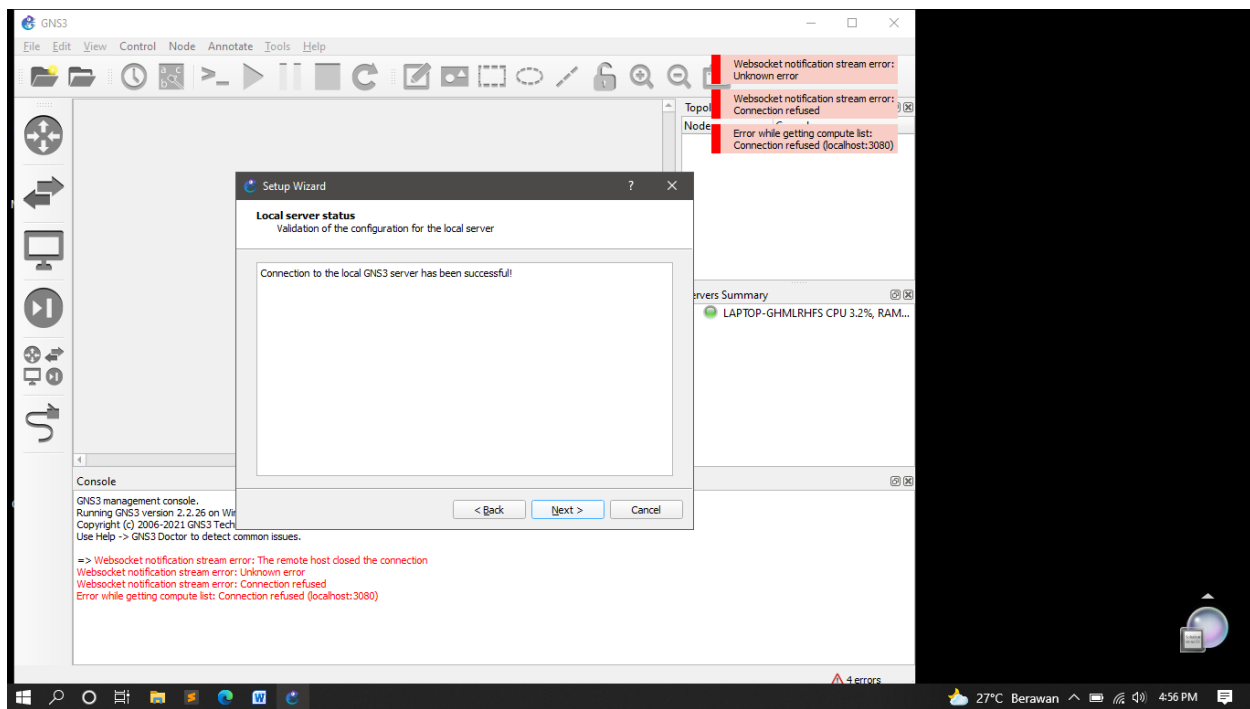

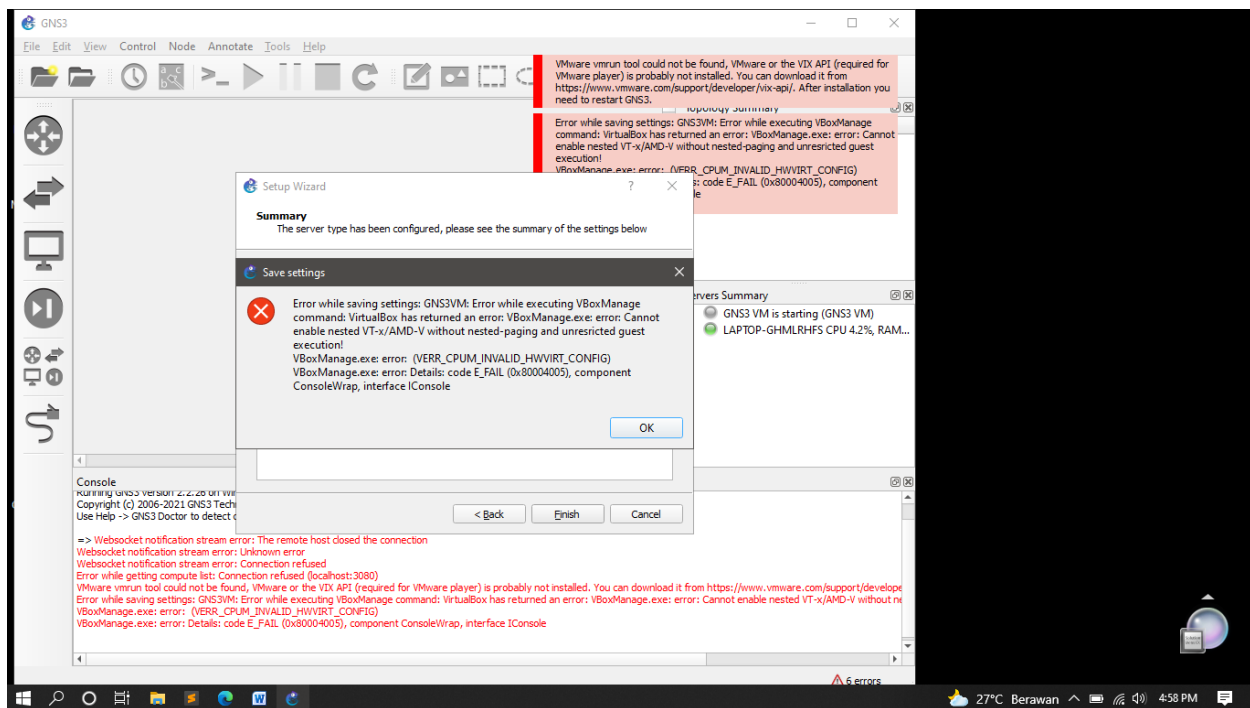

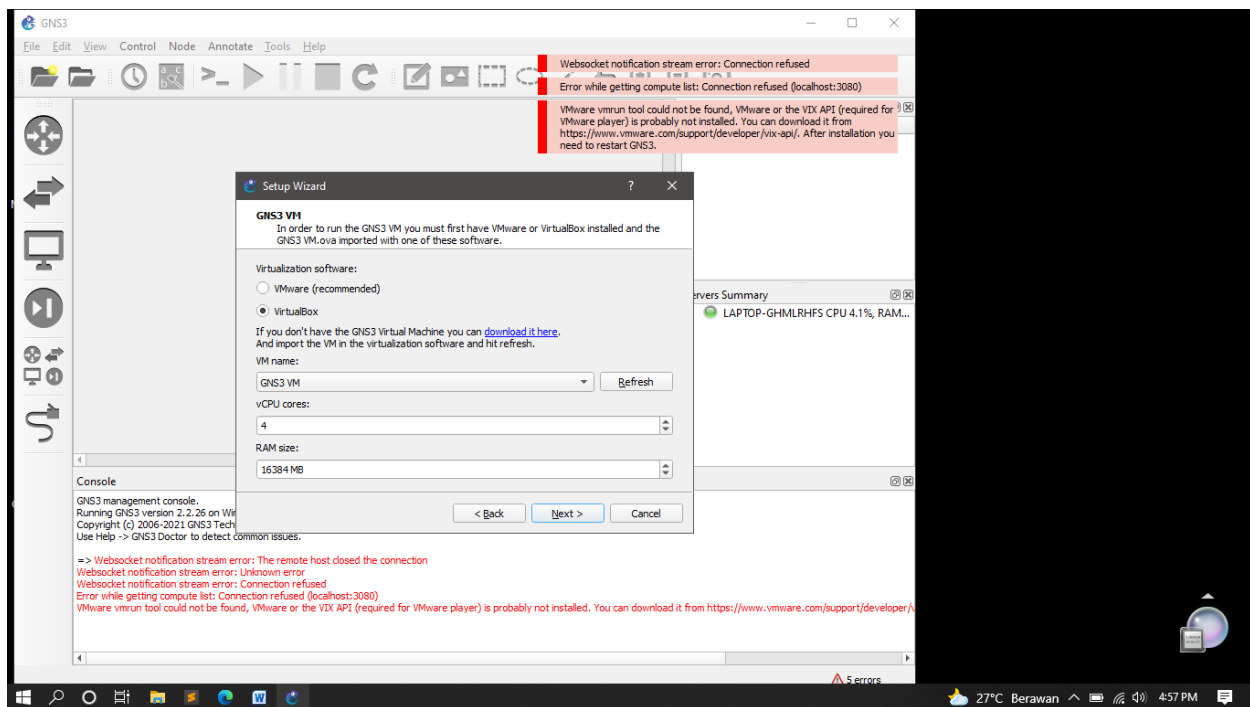

- Pada bagian Network di Settings, pilih Host-only Adapter Attached to di Adapter 1.

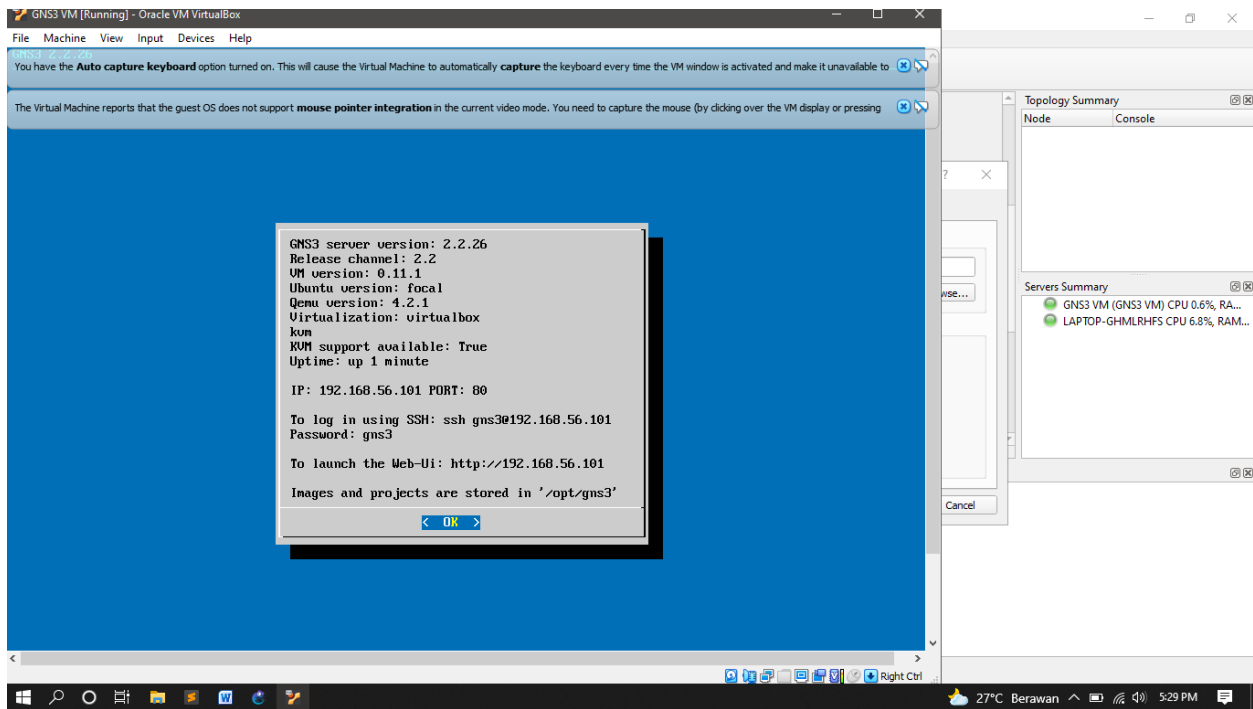

- Setelah selesai instal GNS3, lakukan setup wizard seperti berikut ini.

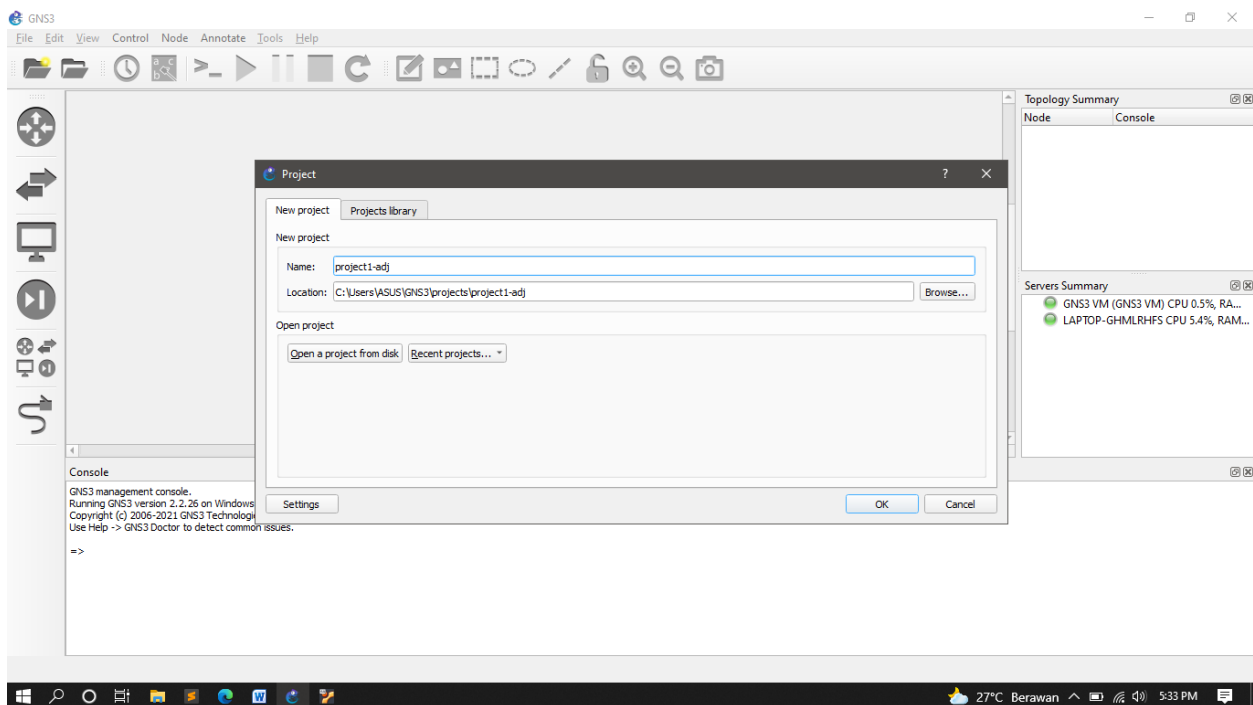

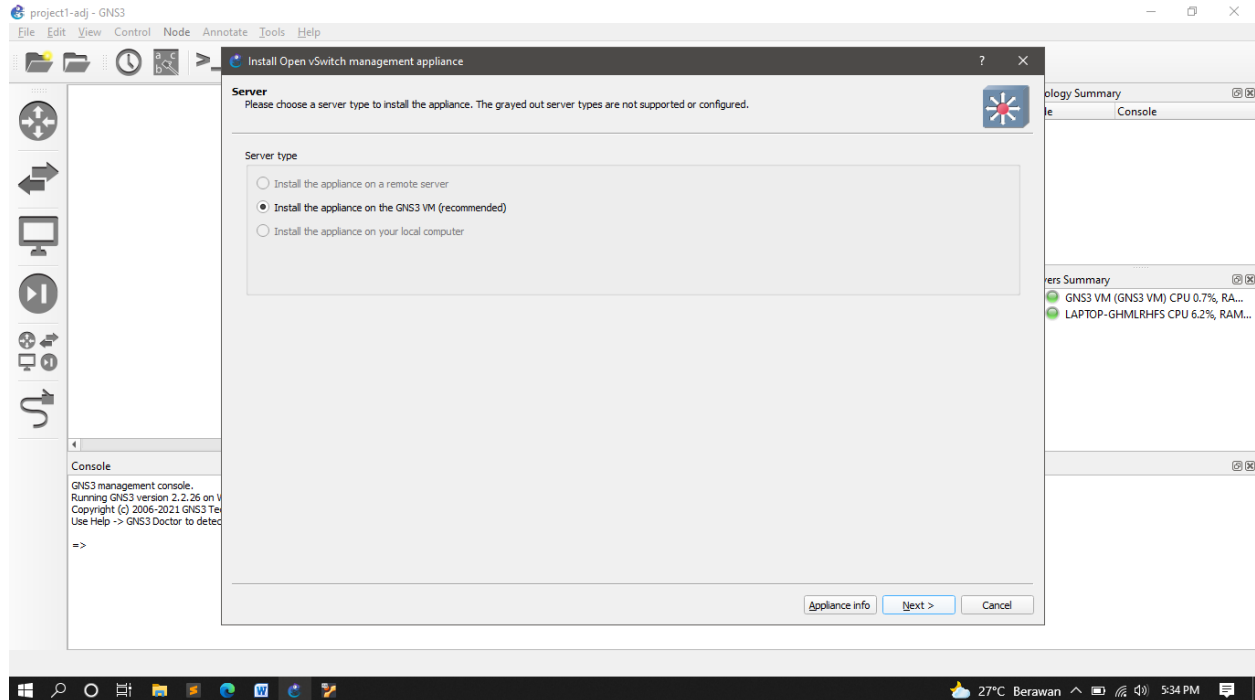

- Dikarenakan adanya error dari sistem. Saya menemukan solusi dan berakhir memperbaiki error dan setelah itu langsung terhubung ke GNS3 VM virtual box.

- Membuat project baru.

- Import Open vSwitch.

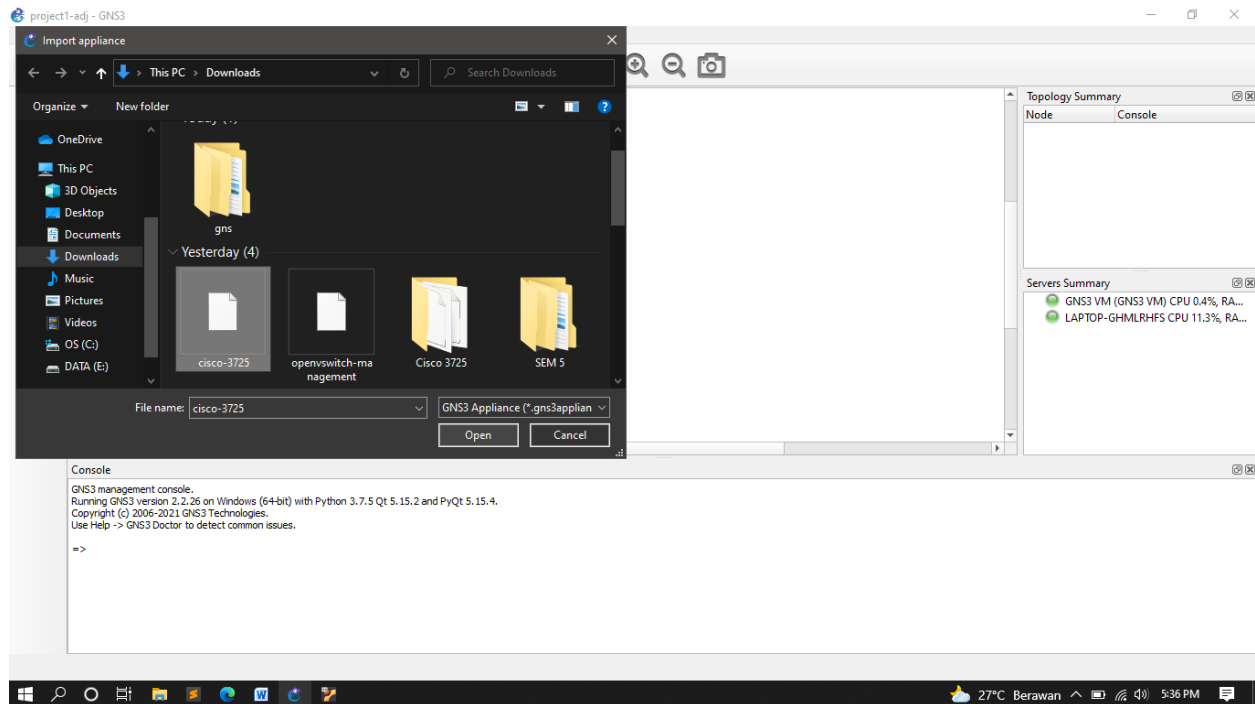

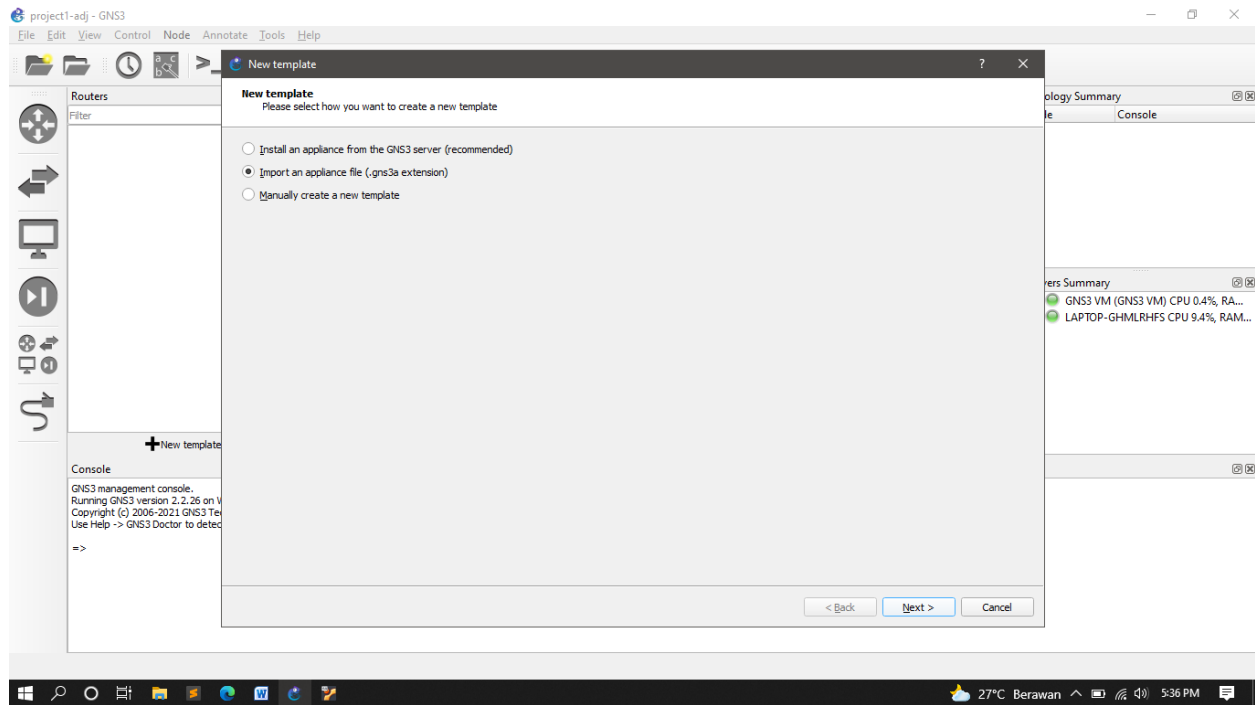

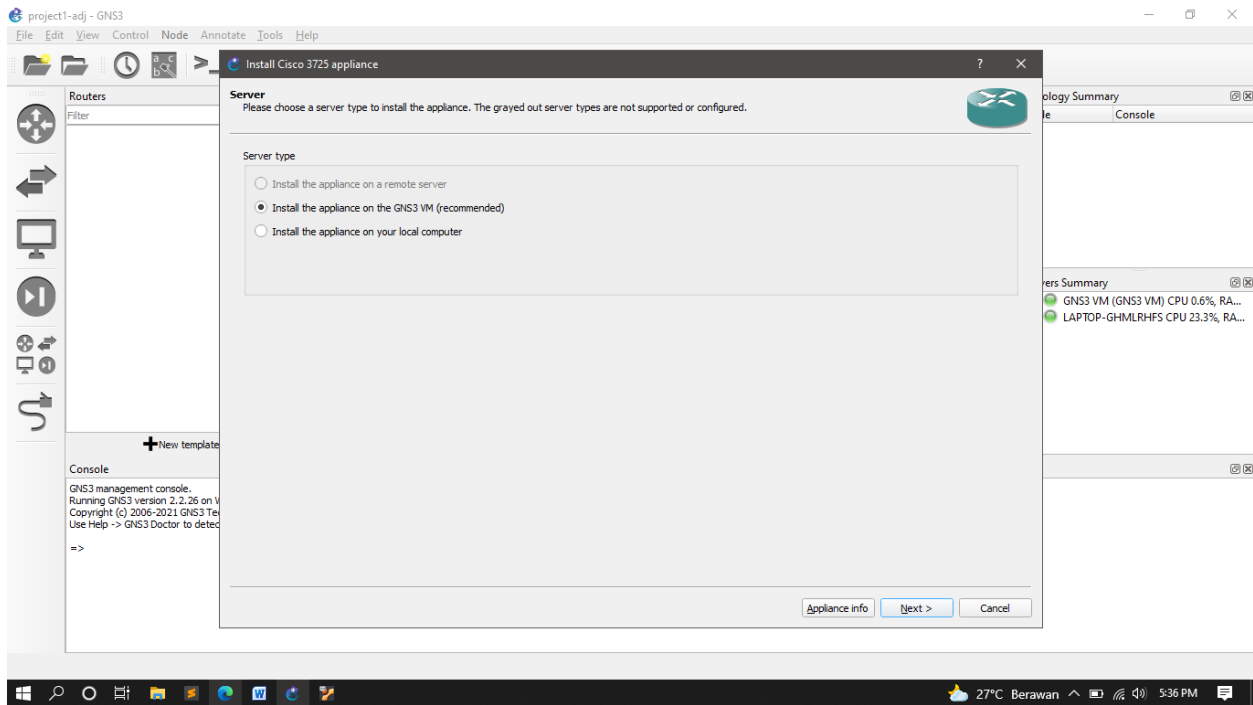

- Open vSwitch management telah berhasil di-import.

- Membuat template baru dan meng-import cisco 3725.

- Cisco 3725 telah berhasil di-import.
